REMARKS

fcd
94

25X1 About 30 twin-engine aircraft were observed at the ORANIENBURG (N 53/Z 67) airfield. There was no flying. A newly sodded landing field strip was seen on the southeastern section of the field. Intensive macadamizing was being done on the north-western section of the field.

25X1 Comment:

25X1 a. Report confirms 30 to 50 PE-2 bombers were parked at the
 25X1 airfield. * Only one bomber regiment is apparently stationed in
ORANIENBURG. The other regiment previously assumed to be also
stationed there was probably transferred to STRAUSBERG.

25X1 b. the construction work on
 25X1 the north-west south-east runway in
 25X1 July 1949 is assumed that this work has been completed.
Work on the northwestern section of the landing field was re-
ported for the first time.
